

Chairman's welcome

In the name of Allah, Lineer Industrial Company decided to work in the field of chemicals, and its vision is leadership and high quality chemical products. Its first project established a caustic soda production plant in Ali Agha Industrial City in the state of Izmir on an area of fifty thousand square meters. It contracted with international companies ie British, Turkish and Indian expertise to implement this type of factory and much progress has been made in building and purchasing equipment, and soon we will see the dream come true.

We appreciate the efforts made by the employees, we thank the shareholders for their interaction, and we salute the Turkish government for their various incentives and facilities, and we look forward to more cooperation and integration.

The company opens its website to all interested parties to view the most prominent events, and we gladly receive your comments.
